

MAINSTREAM
WATER SOLUTIONS INC.

Join Mainstream and Watertiger at BCWWA 2010!

(REGINA, SK) March 31, 2010 - - - Mainstream Water Solutions Inc. of Regina, Saskatchewan, along with Watertiger of British Columbia, invite you to join us at the 2010 BCWWA (British Columbia Water and Wastewater Association) Trade Show, to be held Saturday May 1st – Wednesday May 5th at the TELUS Convention Centre in Whistler, B.C. Warren Hermanson, Mainstream's Account Executive - Biofiltration, along with Adam Scheuer, President of Watertiger, will be exhibiting at Booth #1024, and would be happy to talk to you about your specific water treatment needs!

This year, we are excited to announce that Ann Gottinger, Mainstream's Director of Research & Development, has been selected to present at the BCWWA Conference. She will be speaking at the Small Water Systems Session on Monday May 3rd, 2010.

Mainstream specializes in "green" drinking water treatment solutions for small municipalities, and has water treatment plants operating across Western Canada. Our ozone-assisted biofiltration systems are cost-effective, easy to operate, reliable, produce very little wastewater, and provide exceptional quality drinking water from both surface and ground water sources. Mainstream systems are custom-designed to suit each customer's specific needs and conditions, providing from 1 m³ up to 2,000 m³ of treated drinking water per day.

For further information about Mainstream and its chemical-free systems, please visit our website at www.mainstreamwater.com or give us a call at (306) 761-5000 or toll-free at 1-866-274-9789. For more information about Watertiger, Mainstream's authorized dealer in the British Columbia region, please visit www.watertiger.net or call (250) 412-1110.

Sincerely,

Warren Hermanson, Account Executive - Biofiltration
