

MAINSTREAM
WATER SOLUTIONS INC.

Join Mainstream at the 2010 SARM Trade Show!

(REGINA, SK), March 3, 2010 - - Mainstream Water Solutions Inc. of Regina, Saskatchewan, invites you to join us at the 2010 SARM (Saskatchewan Association of Rural Municipalities) Trade Show, to be held Monday March 8th – Wednesday March 10th, at the Queensbury Convention Centre, EVRAZ Place, Regina, Saskatchewan. Mainstream will be exhibiting at Booth #26, and would be pleased for you to stop by for a visit.

Mainstream specializes in “green” drinking water treatment solutions for small municipalities, and has water treatment plants operating in Saskatchewan, Manitoba, and Alberta. Our ozone-assisted biofiltration systems are cost-effective, easy to operate, reliable, and produce very little wastewater. Our proven technology provides exceptional quality drinking water, even from the most difficult-to-treat raw water sources, including both surface and ground water. Mainstream systems are custom-designed to suit each customer’s specific needs and conditions, providing from 1 m³ up to 1,000 m³ of treated drinking water per day.

Please stop by our booth, or contact us for more information. You can also view our complete list of upcoming events on the Mainstream website:
