Saskatchewan Grant Application Deadline

FOR IMMEDIATE RELEASE
April 29, 2009

(Staff Writers) With the May 15th, 2009 deadline for BCF (Build Canada Fund) infrastructure grant applications quickly approaching, Mainstream is here to help! Our clients have an excellent success record for receiving funding for their drinking water treatment projects. Our experience helps communities submit their applications properly and on time.

The 2009 BCF Grant Program is outlined as follows:

- Joint federal/ provincial/ municipal program.
- Provides grant funding for 66.66% of the capital cost of infrastructure (does not contribute towards operating costs).
- Water treatment is a high priority to meet new regulations.
- Projects are selected based on application quality.
- The application is lengthy and complicated, and requires careful and diligent preparation.
- Mainstream clients have an excellent success record.

Mainstream's ozone-assisted biofiltration treatment system has proven to be highly effective and economical to operate for communities across the prairies. Our municipal systems exceed the latest water quality standards for ground water, dugout, lake and river sources.

Recent advancements to our system include the introduction of filters for the effective removal of uranium and arsenic.

As complete water treatment project specialists, we offer our clients the following:

- Unique, proven, and environmentally friendly water treatment technology packages that are custom designed for each customer.
- Comprehensive project planning and execution services from planning to operational training and long term support.

For further information about our company and our chemical-free systems, please visit our website at www.mainstreamwater.com or give us a call at (306) 761-5000 or toll-free at 1-866-274-9789.
